

K-Love serves me as a resident of Mesa, AZ in that it is uplifting and positive. It's family friendly programming that I don't have to worry what my 12-year old son hears. It supports my values, family, It's informative on issues I care about. I believe there would be a detrimental effect if K-Love would be replaced by an LPFM broadcaster providing other programming. I've not heard very many other radio stations that have family-friendly, up-beat programming like K-Love. Our citizens need a good alternative to what's normally out there. I believe K-Love is in the public interest because it provides good examples, good morals and values and promotes helping helping your neighbors and being a good citizen. Our country could use more of that. I, as well as a lot of people would be very sad and really miss K-Love if it were not around. Please don't let that happen. Stand up for us, I beg you.
